

Oran Gal - Full Stack Developer

oran_gal@outlook.com | 050-9042004 | [Linkedin](#) | [Github](#)

Experienced Developer proficient in **JavaScript**, **React**, **NodeJS**, and **MongoDB**. Motivated for my next challenge in a company that is looking for a great team player and self-learner to develop end-to-end applications and deal with challenging problems.

EXPERIENCE

Movify – Movie Theater Employee System

Designed and built a full-stack web application that enables theater employees to manage movies, members, and subscriptions, while tracking which members attended specific screenings.

- **Frontend:** **React** with a clean component architecture and protected routes.
- **Backend:** **NodeJS & Express**, structured into business and data layers, exposing a **RESTful API** with full **CRUD** operations.
- **Database:** **MongoDB** with **Mongoose**, including relational logic between movies, members, and subscriptions.
- **Security:** Implemented **JWT** authentication and **Bcrypt** password hashing for secure login, authentication and role-based authorization across frontend and backend.

Freelance Shopify Developer – SOOLRA shop.soolra.com

Redesigned a production-ready Shopify storefront, delivering a clean, responsive shopping experience tailored to the client's brand.

- **Theme Development:** Wrote and refactored **custom Liquid code** to create flexible layouts, reusable components, and maintainable templates.
- **Custom Components:** Implemented product previews, dynamic variant selectors, and media sliders with CSS/Javascript enhancements.
- **Performance & UX:** Ensured responsive design, smooth cross-device functionality, and optimized load times.
- **Collaboration:** Worked closely with the client to refine UI/UX and integrate Shopify apps (Loox, Pumper) for reviews and promotions.
